

NXG-001 - Bioactive Peptide

Lot NXG-2026-A8 · Released 2026-04-12

PURITY

99.42%

ENDOTOXIN

<0.18 EU/mg

ANALYST

M. Reyes, M.S.

STATUS

ACCEPT — released

Identity confirmed by HPLC-MS to within four decimal places of theoretical mass. Purity integrated from a C18 reversed-phase HPLC trace at 220 nm. Endotoxin quantified by kinetic-turbidimetric LAL assay against an internal standard curve. Released against the published lot specification by the analyst named above.
